INTRODUCTION

ACCOUNTING AND FINANCIAL SOLUTIONS THAT DRIVE RESULTS

In an increasingly competitive market, having personalized accounting and financial advisory services is essential for sustainable business growth. Our approach goes beyond regulatory compliance—we deliver strategic insights, organization, and reliable support to help each client make informed decisions, minimize risks, and maximize opportunities. We work closely with your business, tailoring solutions to meet your specific needs.

VISION

To be recognized nationally and internationally as a reference in strategic, transparent and humane accounting, especially supporting international companies in their journey of sustainable growth and compliance in Brazil. Open Book aims to build a legacy of longevity, being remembered for having a deep knowledge of its clients' business, anticipating their needs and acting as a reliable partner as business development, succession planning and business continuity, with ethics, transparency and commitment to the long term.

- ☑ **Reference in clear and human-centered accounting**
- ☑ **Support for international companies in Brazil**
- ☑ **Partnership that understands and anticipates needs**
- ☑ **Focus on leadership, ethics, and business continuity**

MISSION

Our mission is to support our clients in the sustainable planning of their businesses, through the provision of regular accounting and tax services, with the delivery of analytical accounting and financial reports and statements, reliable, comparable and in line with legality, transparency and compliance standards, effectively contributing to strategic decision-making and the growth of their managers and organizations.

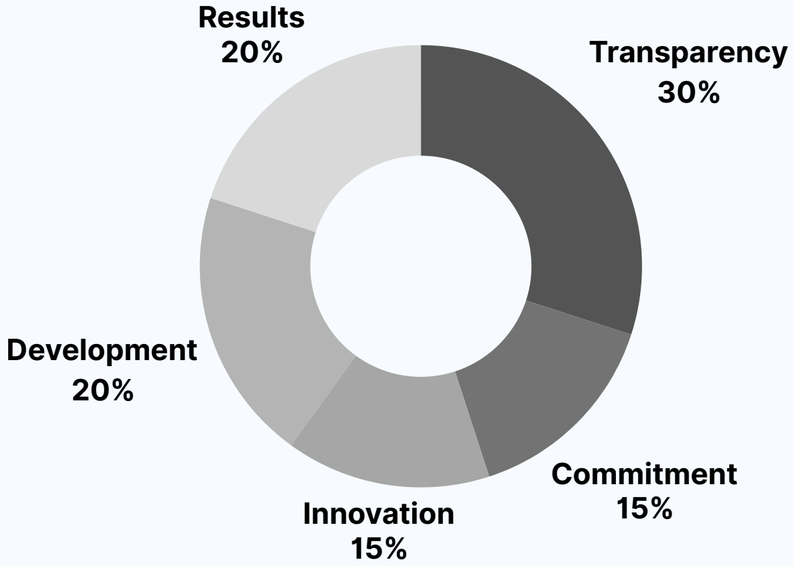
- Support clients’ sustainable growth
- Ensure transparent accounting and tax services
- Assist in strategic decision-making

VALUES

Open Book operates based on transparency, ethics and commitment to the client, seeking to deeply understand their business. It values innovation responsibly, combining technology with the human dimension, and continuously invests in the development of its team. Its decisions are guided by data, always focusing on sustainable and long-term results.

Core Commitments That Guide Our Decisions

- ☑ TRANSPARENCY, ETHICS, AND CLIENT FOCUS
- ☑ DEEP UNDERSTANDING OF EACH BUSINESS
- ☑ DATA-DRIVEN DECISIONS AND SUSTAINABLE RESULTS



DIFFERENTIATED WAY OF WORKING

Since the pandemic, Open Book has adopted a **hybrid work model**, combining technology with personalized, human-centered service. This structure brings benefits for everyone:

- **Employees** gain better quality of life, flexibility, and increased productivity.
- **Clients** enjoy faster service, easier access, and tailor-made solutions.

With a solid technological foundation, we maintain **transparent, secure, and efficient services**. We continue to grow with a focus on **trust, innovation, and close relationships with our clients.**

Hybrid Work: Balancing Flexibility, Productivity, and Engagement

“

Hybrid work has become essential for us, as it combines the flexibility of remote work with the benefits of in-person work, allowing us to better manage our time and increase productivity. With this model, we operate in an environment that balances autonomy, innovation, and collaboration.

It also helps us reduce stress and time lost on commuting, while maintaining the closeness needed to strengthen our organizational culture. This combination of flexibility and engagement makes hybrid work a sustainable strategy aligned with the demands of the modern corporate world.

MESSAGE FROM THE PARTNERS

With more than 13 years of experience, Open-Book Accounting and Financial Advisory offers **customized accounting and financial solutions for companies of different sizes, operating in Brazil and abroad**. The company has a **team specialized in national and international accounting standards, taxes and financial management**, providing complete and strategic service.

In addition to traditional accounting services, Open-Book also **outsources financial management, with a focus on planning, control, and performance**. Its performance is based on **transparency, reliability and results orientation**, supporting decisions with accurate and up-to-date data, always aligned with the principles of open accounting.

SERVICE STRUCTURE

- ☑ Accounting BPO
- ☑ Financial BPO
- ☑ Legal
- ☑ Administrative Services
- ☑ Training

EMPOWERMENT

A accounting and financial advisory firm is strengthened by a complete team, capable of providing integrated and strategic solutions, ensuring accuracy, efficiency, and continuous support for the sustainable growth of businesses.

SERVICES OFFERED

ACCOUNTING BPO

Area dedicated to the outsourcing of accounting and labor processes, ensuring legal compliance and administrative optimization.

- **Fiscal**

It performs tax calculation, accessory obligations and monitors tax legislation to ensure correct compliance with tax requirements.

- **DP (Payroll)**

It takes care of all personnel management: admissions, dismissals, payroll, social charges, vacations and labor obligations.

- **Accounting**

Performs bookkeeping, generation of financial statements, reconciliations and management analysis, supporting strategic decision-making.

SERVICES OFFERED

FINANCIAL BPO

Responsible for the financial management of customers, offering services ranging from account control to foreign exchange operations.

- **Accounts payable**

Control and organization of accounts payable and receivable, bank reconciliation, cash flow and financial planning.

- **Exchange services**

Intermediates and manages foreign exchange operations, advising companies that carry out international transactions safely and compliantly.

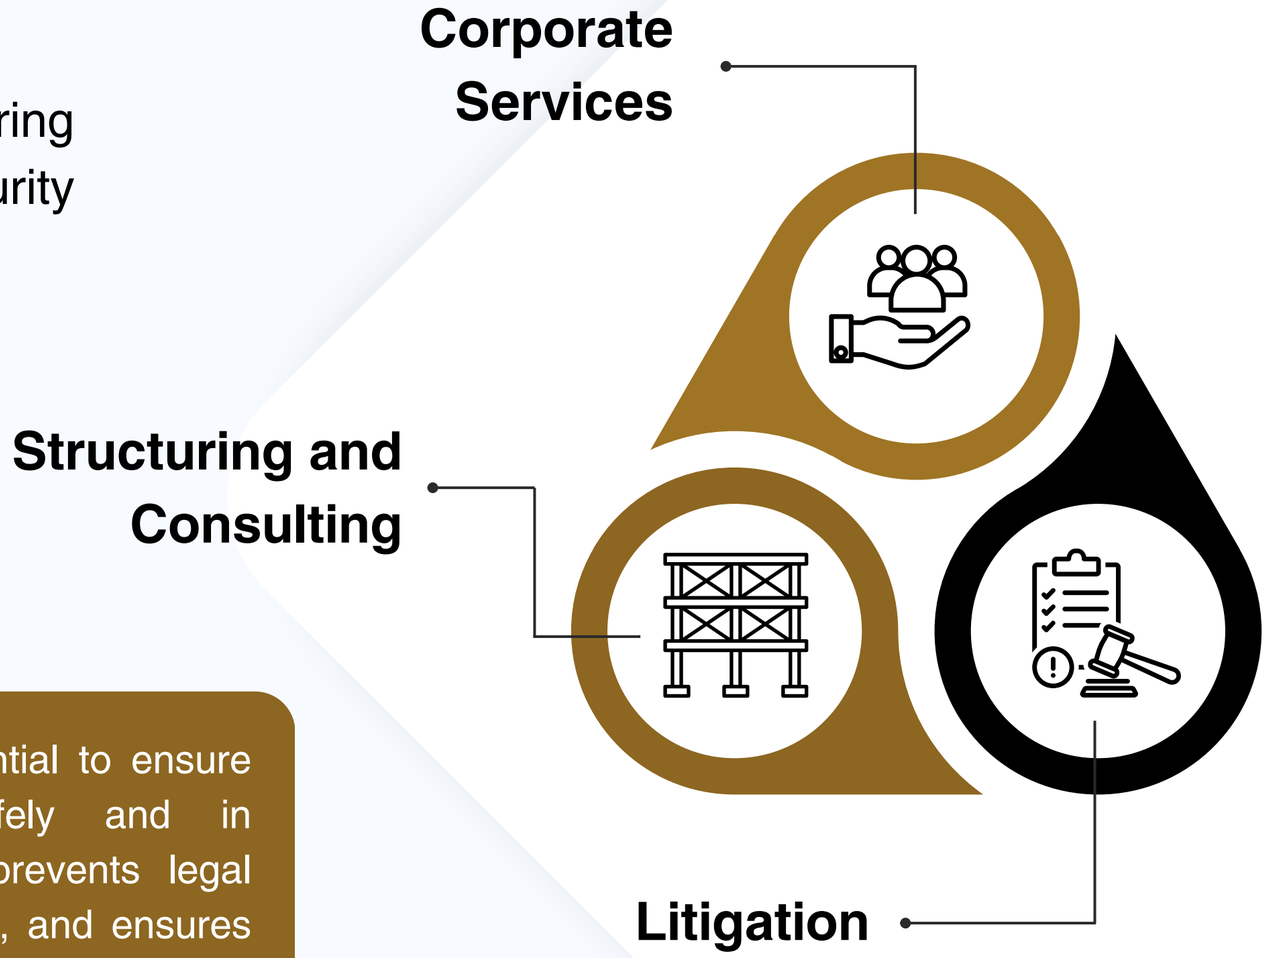
Financial BPO is essential for a company, ensuring financial control, cash flow planning, and secure handling of currency operations, allowing the business to focus on growth efficiently.

SERVICES OFFERED

LEGAL

It offers specialized legal support for the structuring and operation of companies, with a focus on security and legal expansion.

The Legal department is essential to ensure the company operates safely and in compliance with the law. It prevents legal risks, supports decision-making, and ensures that all processes and contracts comply with current regulations.



SERVICES OFFERED

ADMINISTRATIVE SERVICES

It offers infrastructure and operational support to domestic and foreign companies in need of local representation and support.

- **Coworking**

Shared physical space, with structure for companies that need to operate in Brazil without maintaining their own headquarters.

- **Impersonation**

Legal and administrative representation of the company before public and private bodies in Brazil.

- **Tax Recovery**

Identification of tax credits and execution of recovery processes of amounts unduly paid or overpaid.

SERVICES OFFERED

TRAINING

Area focused on team training, promoting technical knowledge and development of corporate skills.

- **Corporate**

Customized training programs for companies, focusing on accounting, finance, legislation and administrative processes.

- **On Demand**

On-demand training, developed according to the specific needs of the client, with flexibility of format and content.

Training is essential for business growth, as it equips teams with technical knowledge and develops skills that enhance efficiency and work quality. Customized and on-demand programs ensure learning tailored to each company's needs, strengthening performance and competitiveness.

TECHNOLOGIES AND TOOLS

Open-Book Accounting and Financial Advisory bets on technology as an ally of excellence. To this end, it continuously invests in process automation and integrated platforms that ensure agility, accuracy, and safety in service. With solutions such as Domain, Jetax, Econet and the Onvio package, the company offers modern, transparent accounting management in full compliance with the LGPD.

These tools enable the automated execution of tax and labor routines, secure tax deliveries, quick decisions with technical backing, and protected digital channels for communication and document submission. As a result, customers have agile service, fewer operational failures, greater data security, and a more fluid and efficient digital experience.

THOMSON REUTERS

Jetax

Technology is crucial for business growth, as it enables greater efficiency, accuracy, and speed in processes. In an accounting firm, it ensures secure data management, automates repetitive tasks, and provides strategic insights, allowing our team to focus on what truly matters: delivering high-quality, strategic services to our clients.

OUR CLIENTS

For us, at our accounting and financial advisory firm, our clients are at the center of everything we do. Each company we serve brings unique challenges, growth opportunities, and the trust that allows us to act strategically. We value our clients by providing accurate and efficient solutions while building strong relationships based on transparency, respect, and a commitment to their financial and accounting success.

BARBI

National industrial operation with accounting needs aligned to global standards.

MS Schippers
One-stop-shop for livestock farmers

Multinational agribusiness with a complex tax structure, global presence, and strict compliance requirements.

TRIDENT TRUST

Advisory and asset management institutions that require discretion, transparency, and technical rigor at an international level.

OUR CLIENTS

For us, at our accounting and financial advisory firm, our clients are at the center of everything we do. Each company we serve brings unique challenges, growth opportunities, and the trust that allows us to act strategically. We value our clients by providing accurate and efficient solutions while building strong relationships based on transparency, respect, and a commitment to their financial and accounting success.

Global reference in the management of arenas and sports and cultural events.

Entertainment and artistic production company with accounting management focused on the dynamics of the creative market.

Technology and digital advertising giant with international operations and high compliance requirements.

CONCLUSION

STRATEGIC PARTNERSHIP FOR BUSINESS GROWTH AND STABILITY

Having accounting and financial advisory services that align with the reality of your business makes all the difference in building solid and lasting results. We are ready to go beyond being just a service provider — our goal is to be a strategic partner in the growth of your company.

More than an office: your strategic business partner.
